PROJECTS	
<b>Netflix Clone - Web Development</b>	<b>May 2023 - Present</b>
The Netflix Clone website is a simplified version that mimics the design and functionality of Netflix using HTML and CSS. It features a user-friendly interface with movie and TV show collections, search capabilities, and responsive design for various devices.	
<b>Personal Portfolio Website - Web Development</b>	<b>Jan 2023 - Jan 2023</b>
This website represents all of my education history, all the projects that I have been working on and further information about me. This website is completely made with HTML, CSS and Javascript. It shows my skills and my web development capabilities.	
<b>Weather App - Web Development</b>	<b>Apr 2023 - Apr 2023</b>
The Weather Forecast web app offers accurate and up-to-date weather information worldwide. It provides current conditions, hourly and extended forecasts, and supports location-based or manual search. The app is user-friendly, responsive, and accessible on various devices.	
<b>News App - Web Development</b>	<b>Feb 2023 - Mar 2023</b>
Created visually appealing News App using HTML, JavaScript, and CSS. Integrated APIs for data retrieval, enabling real-time news updates. Built user-friendly navigation, intuitive search, and dynamic article cards. Demonstrated expertise in delivering engaging user experiences with customized interactivity and styling.
